Hi Karen,

I just spoke with Al about the change in schedule. No problem, next Spring will be fine. Just keep us posted of your plans and we'll work to accommodate your crew.

Brian

Subject: 96 commerce soil sampling postponed

Hi Al – due to scheduling conflicts with equipment plus losing a few days this week to the holiday, we are NOT going to be soil sampling next week. I think it is best at this point to postpone until spring. seems I was overly optimistic!

Please do me the favor of a reply so that I know you got this.

Thanks.

Karen
